 **EXPERT** 25-36

 **MASTER** 37-48

GAME RULES

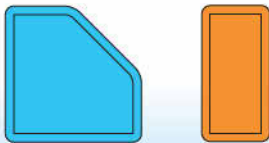

- 1 Choose a challenge. Select the truck and playing pieces indicated by your challenge card. You may need more than one truck for some challenges. Put the trucks and playing pieces you don't need for the challenge to one side, out of the way.
- 2 Load up the cargo into the back of each truck in your challenge.
 - Place the pieces in the cargo hold of each truck, all pieces need to fit so that none stick out over the edge of the cargo container.
 - The cargo pieces can be orientated in any direction, so place them whichever way up helps you solve the challenge.
 - The cargo hold doesn't have to be completely filled. Sometimes there will be empty space left.
 - For STARTER and JUNIOR levels you only have to load up one truck. For the EXPERT and MASTER levels you have to load up two or three.
 - When you have to load up several trucks, you have to figure out how the pieces fit into each cargo space, and you also need to decide how you will divide the playing pieces between the trucks in the challenge.

There is only one solution. You can check it on the flipside of each challenge page.

3 HINTS for parents and teachers

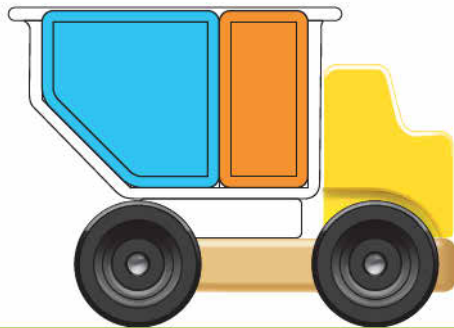

Trucky 3 evolves in step with your child's skills. Toddlers initially play with the trucks, loading them up and emptying them, and driving them round like a toy car. Kids who are a bit older play the game, working through the 48 exciting challenges that are easy at first, then gradually get more and more difficult. If the challenges seem too hard, load up the trucks by looking at the solutions first.
